

## YOEMEN LOSE HEARTBREAKER TO BRENHAM SET TO MEET BLACK CATS FRIDAY NIGHT

**DEDICATORY SERVICES** For the new Czech Moravian Brethren Church will be held in Buckholts Sunday, September 30, 1951, beginning at 10 A. M.

Rev. H. E. Beseda, Sr., Pastor of the church will lead the services and Rev. H. E. Beseda, Jr. also pastor of the church will deliver the message in English. A message in the Czech language will also be given.

## Five More Men Called For Nov. 7th Induction At Love Field, Dallas

The eighteenth induction call for Milam County since the outbreak of the Korean war was announced Thursday, September 20, by the local draft board.

The draftees are scheduled to leave Cameron by bus at 1:30 p. m. November 6. They will be inducted at Love Field, November 7.

Those called were: Bose E. Robinson, Anton J. Michalka, Byron W. Neal, William E. Kucel and Wallace J. Small.

With this last call, Milam County has sent 117 men for induction since the outbreak of the Korean war.

## Mrs. Higginbotham Given Going-Away Party Thursday

Mesdames Charles Brady, Harry Haraway and Curtis Moseley were hostesses to a going away party honoring Mrs. Jack Higginbotham at the Brady home Thursday evening, September 20.

Highway Patrolman and Mrs. Higginbotham and family are leaving for Amarillo where they will make their home.

There were twenty guests enjoying the occasion and each presented the honoree with a nice gift.

The hostess served dainty open face sandwiches, cookies, salted nuts and Cokes.

## Ideal Hatchery Takes Top Honors At Fair

At the Poultry Show at Cent-Tex Fair, Cameron's Ideal Hatchery took the grand champion honors in the senior show and G. P. Davis of Milano showed the reserve champion. In addition, Ideal Hatchery won all three places in the White Leghorn division.

In the special section Ideal Hatchery won first place in white eggs and Mary Jureak of Burlington was second. The Ideal Hatchery was third with another entry.

Fred Price of McGregor judged the special section Wednesday. Dr. W. Beanblossom, poultry expert from Texas A. & M. College, who judged the Temple show said the Cent-Tex poultry show was "a great one."

## Girl Scout Council Sets Friday Meeting

A Girl Scout Council meeting was scheduled Friday, according to Mrs. David Shapiro, presiding president.

The meeting was called for the purpose of discussing plans for the kick-off party for the 1951-52 scouting season.

Those present were: Mrs. David Shapiro, Mrs. Charles Brady, Mrs. Harry Haraway, Mrs. Lester Williams, Mrs. B. F. Robinson, Mrs. Robert Wells and Narvie Caperton.

## Many Surprised As Yoemen Do Better Than Expected

Cameron's Yoemen went down fighting in a heart breaking defeat Friday at the hands of the Brenham Cubs.

The Yoemen got off to a bad start early in the first period when, on the ninth play of the game, a bad pass from center resulted in a Cameron safety, pushing the Cubs ahead by two points.

Only five plays later, the Cubs were again invading the Yoemen double stripe. The TD was set up by a sensational pass play from Joswiak to Bredthauer, Bredthauer literally snatching the ball from his shoe strings. Three plays later Landua went crashing through the Yoe defense onto pay dirt. The conversion was no good.

The rest of the quarter was spent in the Yoe end of the field with Brenham hacking out small gains and Cameron trying to batter down a brick wall.

The next quarter told a different story. Yoe passes began to connect and the Yoe line stiffened its back and held like a bunch of bull dogs. The first three minutes of the quarter found Thompson hitting Batte with a 15 yard pass from his own 25, and Batte scampering another 29 yards to the Cub 31. Three plays later the ball rested on the Cub 9, and the Yoemen had first down and goal to go. But the boys tarried a little too long in the huddle and drew 5 yards for delaying the game. That seemed to break the back of the Yoe drive and the ball passed over on downs on the Cub 11.

The rest of the half saw a seesaw battle up and down the field, the half ending with no further score. Half time score—Brenham 8, Cameron 0.

The start of the second half was uneventful until, about mid-

way in the third quarter Hawk recovered a Cub fumble on his (Turn to Page 9)

## W. T. Hanes Warns Against Buying Unauthorized Ads

It has been reported to Cameron School Superintendent W. T. Hanes that someone has been trying to sell ads among the merchants which are allegedly for some type of school program. According to Hanes, this has not been authorized by the school, and if such a program should be completed and presented to them, it would not be accepted.

Hanes pointed out that there are only two occasions on which the school sells advertising; these being for the football programs and the Fall carnival. When these ads are sold, the solicitors are required to have written authorization from the school to sell.

## Excellent Showing At Cen-Tex Fair By Cameron Farm Boys

Cameron farm boys are making themselves known at the Cen-Tex Fair.

In Thursday's judging of the dairy cattle junior division, Tommy Pencass walked away with first honors for heifers dropped after January 1, 1951.

Cows dropped before July 1, 1949, Buddy Chandler snared second place; Heifers dropped July 1, '49 to '50, George Weathers managed to ease into third place; in heifers dropped July 1, 1950 to January 1, 1951, Leon Koenig trailed with a fourth place rating.

Section C, Boys shorthorn steers, Ardel Pagel, 850 pounds or under, carried off the top ribbon amid tough competition.

## Local Draft Board Explains Meaning Of Classification

(Editor's Note: This is fourth in a series of five articles telling what various classifications of Milam County Local Draft Board No. 92 mean.)

The final three subclasses under Class IV are IV-D, IV-E, and IV-F. A minister of religion is identified by the classification IV-D. It is also applied to divinity students. In this category are regular ministers of religion, duly ordained ministers of religion, and students preparing for the ministry.

A regular minister of religion is one who preaches and teaches the principles of his church, but was never formally ordained and is recognized by his church as a regular minister.

By duly ordained minister is meant one who was ordained by a certain ceremonial rite of his church.

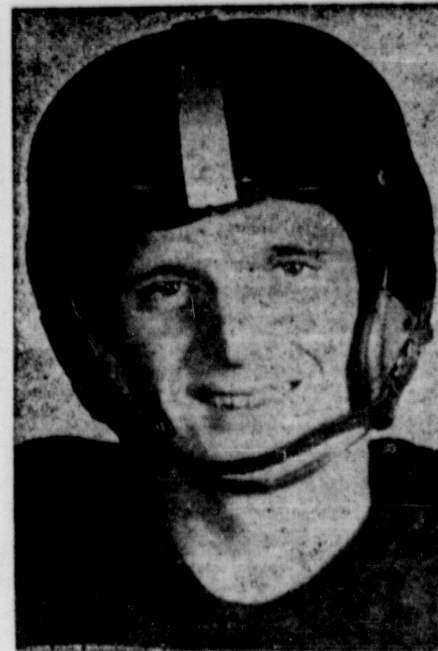

A registrant who irregularly or incidentally preaches and teaches the principles of his church is not eligible for IV-D. A duly ordained minister must preach and teach regularly as a vocation.

Class IV-E is that classification reserved for conscientious objectors opposed to both combat and non-combatant training and service by reason of religious training and belief.

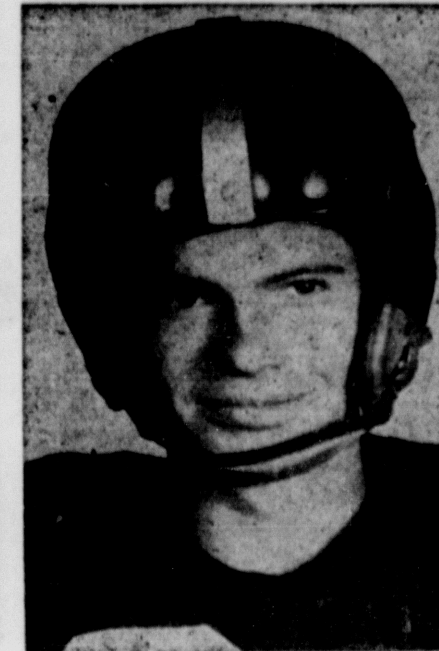

A registrant's classification in IV-F means that he is physically, mentally, or morally unacceptable for armed forces service.

An impression has grown up in some quarters that IV-F is a bad reflection on a man. That is not necessarily true. A man can be classified IV-F for a case history of asthma, for example—certainly in no way a bad reflection on him.

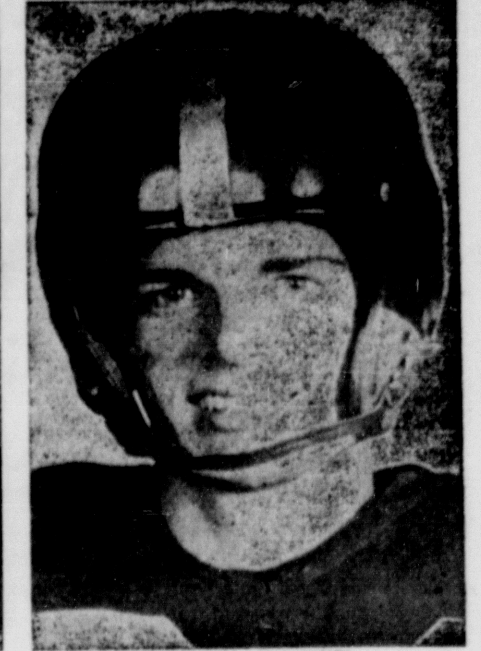

Because of relaxed standards armed forces examination, some men now in IV-F likely will be examined in the future, with the result that some will be found suitable for service.

## ROAD FROM ALCOA PLANT TO THORNDALE NOT APPROVED

According to County Commissioner, W. W. Markham, reports that a road direct from the site of ALCOA'S new plant to Thorndale has been approved is false.

As the report came to the CAMERON HERALD, the vote in

Commissioner's Court was three to one against such a road. It was explained that the road direct to Thorndale would mean nine miles of construction where one from the plant site direct to the Rockdale-Thorndale highway would mean

4 1/2 miles of construction. It was reported that, according to competent highway engineers, the cost would be much less and the purpose accomplished the same if the road were run direct from the ALCOA plant to the Rockdale-Thorndale highway.

## R. G. Vaughan Pleads Guilty To Moral Charge; To Huntsville

The case of the State of Texas vs. R. G. Vaughan was reported to have been officially closed Friday. During a Thursday hearing, Vaughan was said to have accepted his five year sentence for murder without malice. At the same time he waived trial by jury for the April 28 molesting of a 10 year old girl and accepted a one year sentence on the moral offense to run concurrent with his other sentence.

It was reported that Vaughan would be taken to Huntsville and placed in the state penitentiary Saturday.

## Marlin VA Hospital Reviews First Year's Operations

Upon the occasion of the 1st anniversary of the dedication of the VA Hospital, in Marlin, Dr. C. R. Miller, Manager, reviewed the 1st year's operation. The hospital was dedicated on September 16, 1950, by the Administrator of Veterans Affairs.

D. Miller remarked that 157 of the 201 beds have been made available to our veteran population in this area. Hospital authorities are engaged in attempting to secure additional registered nurses, which will enable the station to place the remaining beds at the disposal of our veterans.

The Manager mentioned that the first patient entered the hospital on November 1, 1950, since which time well over 1000 veterans have been cared for and few patients, thus far, have remained in the hospital for any considerable period of time. He remarked that the average length of hospital stay has been approximately 19 days with only one patient having remained six months.

Dr. Miller revealed that he is very happy with the progress the hospital has made and added, "with just a few more registered nurses, we will be in a position to make available our remaining beds and thus complete our activation period."

## Meter Collection For Past Two Weeks Good

Meter collections for the past two weeks have been higher than usual, according to Mrs. Neomi Needam, city secretary.

Collection for the week ending Thursday, September 13, amounted to \$298.99 and the week previous was \$266.83.

All the weeks since the migratory laborers have been in this area the collections have been good, and too the fall season when crops are harvested bring in additional revenue to the entire city as well as the meters.

## Final Rites For William Sheguit Held At St. Monica's Church

Funeral services were held for William Sheguit, 49 at St. Monica's Catholic Church, at 9 a. m. Monday. Rev. George J. Duda officiated. Burial in St. Monica's Catholic cemetery, with Marek-Burns making the arrangements.

Mr. Sheguit died Saturday, at Columbus following an oil field accident. He was born in Cameron November 10, 1901 in the Marlow Community, where he lived for years. He had been with the Oil Company for the past fifteen years.

His survivors include his widow, Mrs. Frances Sheguit; two sons, Thomas R. Sheguit and Paul L. Sheguit; one daughter, Miss Agnes Sheguit all of Cameron; three brothers, Joe Sheguit of Cameron, Albert Sheguit of Houston and Woodrow Sheguit of Freeport; five sisters, Mrs. Lillie Duncan, Killeen, Miss Lavinia Sheguit of Cameron, Mrs. Josephine Matula, Gause, Miss Berdie Sheguit, Austin and Mrs. Cathrine Vasquez of Austin.

Funeralbearers were: Seraphine Wohleb, Carl Hertenberger, R. P. Sheguit, James Coward, Joe Humplik and Clarence Allen.

## S-Sgt. And Mrs. Cryer Are Parents Of Son Born In San Antonio

Staff Sgt. and Mrs. James A. Cryer, Jr., have announced the arrival of a son born September 12, 1951, at Lackland Army Hospital, San Antonio.

The baby weighed seven pounds four ounces and has been named Russell Keith. Both mother and baby are fine.

The Cryers have a daughter, Cathye, who is two and half years old. The mother will be remembered as the former, Dorothy Koch and the grandparents are Mr. and Mrs. J. A. Cryer of Cameron and Mr. and Mrs. Fritz Koch of Rockdale.

## Civic Garden Clubs Hold Initial Meeting

The Civic Garden Club held its first meeting of the fall session September 13, with Mrs. J. D. Moore, presiding in the absence of Mrs. Eddie Dodson, president.

A very interesting and informative program was presented by Mrs. Alvin Dusek and Mrs. Leo Fuchs.

The club presented Mrs. Moore a lovely white container for her loyal work as its past president.

Mrs. Howard Baskin made the presentation in a charming manner. New members are as follows: Mesdames Leroy Raley, Jerry Schiller, Claude Blackwell, Benny Archer and Calvin Markham.

## Former Milam County Resident Buried At Powers Chapel

Funeral services were held for Hettie Maye White, 58, Wednesday, at 3 p. m. at Powers Chapel near Rosebud. Burial in the Powers Chapel cemetery, with Settegast-Kopf Company of Houston directing the arrangements.

Mrs. White died in a Houston hospital Monday. She was born in Milam County, but had lived in Beaumont for the past several years. Survivors are her husband, R. L. White of Beaumont; daughter, Mrs. Lee L. Labaue of Houston; son, G. E. White of Beaumont.

## Business Women Hold Regular Meeting Tuesday Evening

Business and Professional Women's Club held its regular program meeting Tuesday evening, at their club rooms, with the president, Miss Myrtle Hinton presiding.

Miss Yvonne Wimberly gave several vocal numbers with Mrs. Whitliff, club pianist accompanying her.

Mrs. K. K. Robbins gave an interesting discussion of the history of the club.

The president explained the meaning of Business Women's Week, its purpose, etc. Invitations were extended to guests to become members of the club. Application blanks were given and several made application for membership.

Mrs. Vera Goldfarb had charge of arrangements, and Miss Lillian Atkinson was in charge of decorations for the occasion. She used flowers grown in her garden, making an attractive setting for the gathering.

The following guests were present: Mesdames Graham Gillis, M. Statman, Arthur Kruse, Manuel Werner and Miss Wimberly.

## Big Crowd Attends Farm Bureau Meet

An estimated 80 or 90 farmers attended a Farm Bureau Meeting in the district court room Thursday night.

A talk was given on the forms to be filled out for tractor gas tax refunds.

Homer Warren and Carter Eubank, both of McLennan County discussed the science of seeding the clouds for rain. They stated that this service for as little as 5c per acre. The main question that the farmers had was not whether or not these scientists could make it rain, but could they make it stop after they were once started?

D. C. Kelly Littlepage returned from Dallas Sunday, where he visited his daughter, Mrs. E. W. Richardson, who has been critically ill in a Dallas Hospital.

## an editorial

At a joint meeting of the board of directors of the Chamber of Commerce and the City Council Thursday afternoon it was revealed that plans for a government housing project have been put in motion.

When the question of the advisability of thoroughly investigating a government housing project was brought forward, the chamber directors voted unanimously in favor of giving their full support to the city council in such an investigation.

It was very forcefully brought forward by several of the men attending the meeting that Cameron has gotten herself into a sad plight when it comes to adequate housing.

Repeatedly pointed out were the fantastic jumps in real estate prices and rent since the first news of ALCOA was aired.

It was generally agreed on that Cameron could feel no effect from the industrialization of Milam County if the ordinary working man couldn't find a place to live, or if the rent were so high he could not pay it and have enough left to buy food and clothes.

The question of careful study was brought before the group, but the general opinion seemed to be that there is such a thing as being too careful, or in other words, taking too much time.

According to surveys made, private capital is at present ready to build about 15 houses in Cameron. Most of these houses would be for resale, not for rent. All reports show that Cameron's bare minimum need is 50 houses right now. The majority of these houses would need to be rent houses. And the rent will have to be reasonable. The plight of several Texas cities where converted chicken houses rented for as much as \$100 a month was still fresh in the memories of several men at the joint meeting.

An adequate housing project would be a definite step forward for Cameron. It would give our city a chance to grow. This would mean better business, which in turn would mean more and better shops to buy in and a larger selection of merchandise. With conditions as they are now, it is extremely difficult to move to Cameron because there is no place to live.

Your HERALD and DAILY MIDGET promises to keep a daily check on the situation as it moves along and give the facts in full to the public, which we feel they are entitled to.

## Salt Does Not Affect Sterility Of Cattle Research Discloses

Is it safe to let cattle have all the salt they can consume? Is a question that came to the Extension Office, according to J. D. Moore, county agent.

The following is the result of research at the University of Arizona and will be of interest to cattlemen of this area.

Yes, it is safe to let cattle have all the salt they can consume if the animals also drink plenty of fresh water.

In a report to the American Veterinary Medical Association, Dr. W. J. J. Pistor and associates said that some cattlemen have questioned the advisability of feeding salt concentrates because of possible effects on pregnant animals.

The concentrates, containing 70 per cent cotton seed meal mixed with 30 per cent salt has been fed widely in some range areas during short grazing seasons, particularly to breeding animals.

Somebody started a rumor that such high salt intake could result in abortion and sterility among their herds, which made lots of cattlemen worry. So the Arizona research men set out to get the facts.

Their experiments showed that reproductive ability of animals was not affected after a seven-month period on a high salt intake.

Likewise, the amount of salt in their blood and milk was not increased, reports from A. V. M. A. News Service indicated.

In one case, they gave a cow 2 pounds of salt plus 12 gallons of water without harmful effects. However, the same cow got sick after getting the same amount of salt with only three gallons of water.

Their conclusion was that cows can tolerate relatively large amounts of salt if they drink sufficiently large amounts of water, so that the kidneys can eliminate the excess salt.

## More Than 5,000 Federal Certificates Of Age Issued In 1951

More than 5,000 Federal certificates of age had been issued in Texas during 1951 when the public schools opened this week, according to William J. Rogers, Regional Director of the Wage-Hour and Public Contracts Divisions of the U. S. Department of Labor in Dallas.

Federal laws make it unlawful to employ children under 16 years of age in interstate commerce or in the production of goods for interstate commerce, or in processes or occupations directly essential or closely related thereto.

## Mr., Mrs. E. Stecker Parents of Daughter

Mr. and Mrs. Edwin Stecker of Waco are the parents of a girl born September 6, at the Providence Hospital, Waco.

The new girl has been named Diana. She weighed eight and one-fourth pounds. Mrs. Stecker is the former Louise "Sissy" Farmer, who taught dancing school in Cameron for several years.

Grandparents are: Mrs. Leo Stecker of Cameron and Mr. and Mrs. Clarence Farmer of Waco. Mr. Stecker is well known in Cameron.

## 4-H Club Boys Win In Waco Show Saturday; Go To Cen-Tex Fair

Kenneth Hollas, son of Mr. and Mrs. Hugo Hollas, won first place and Champion Duroc Gilt at the Waco Area Show last Saturday.

First prize drew \$40.00 and a blue ribbon. Kenneth is a student in the Cameron School. Mr. and Mrs. Hollas and daughter attended the show.

James Edward Glaser, son of Mr. and Mrs. Willie Glaser of the Buckholts community, placed his

Duroc boar second place with a red ribbon and drew \$30.00 prize money at the Waco show. James Edward attends the Buckholts school. Mr. Glaser attended the show.

Kenneth and James Edward are showing these animals at the Temple Fair this week. Other 4-H club members from Milam County showing swine at the Fair are: Mary Ella Richter, daughter of Mr. and Mrs. Henry Richter of Cameron and Howard Gonten, son of Mr. and Mrs. Carl Gonten of Buckholts.

Gene Angell, son of Mr. and Mrs. C. O. Angell, is showing a Here-

ford steer at Temple this week. The steer was bred by the Monroe Hereford Farm at Cameron.

Miss Sammie Dell Markham and Miss Ann Brock left Wednesday to attend SWTSC at San Marcos. Miss Markham had been employed at McLane Wholesale Co., during the summer months.

## Destroy Cotton Stalks Early And Destroy The Insects

BY J. D. MOORE

Farmers who take the chance of getting a top crop from this year's drought stunted cotton may be inviting trouble from their arch enemies, the boll weevil and pink bollworm. According to A. C. Gunter, Extension Entomologist of A. & M. College, cotton will respond to the recent rains and start growing and fruiting, but the chances are slim that very much cotton will be harvested from this late growth.

Here's what happens: The cotton insects move into the fields and immediately go to work on every new square and boll. Examination will reveal that a very high percentage of the new forms have been attacked and will never make cotton. The insect population will build up and the bugs will go into winter hibernation in large numbers and because they have had plenty of food they will be strong and healthy. Next spring they will emerge and start working on the young cotton, thus causing yield losses and large expenditures for insecticides.

Research has proved that next year's population of boll weevils and pink bollworms can be greatly reduced if cotton stalks are destroyed at least 30 days before the first killing frost. The reason is simple. By destroying the stalks early, the food supply of these pests is completely cut off and they are forced to go into their winter quarters hungry. A large percent will die before next cropping season begins.

Early stalk destruction also cuts off one or more generations of the bugs and thus greatly reduces the number going into hibernation. Cotton farmers have demonstrated many times the effectiveness of early stalk destruction in controlling cotton insects, and especially when carried out on a community or county wide basis. In areas where early cotton stalk destruction cannot be practiced and where pink bollworms exist, it is better to leave the cotton stalks standing until after a hard freeze before destroying them. The insects that are hibernating in the dried up bolls and other

## YARRELLTON NEWS

By MRS. LENA RUSSELL

Miss Millie Lesikar and mother, Mrs. Mary Lesikar were Cameron visitors Saturday evening.

Mrs. Lena Russell visited Mrs. Donnie Barrett in Cameron Thursday afternoon.

Miss Aleene Griswold of Austin spent the week end with her mother, Mrs. Leona Griswold. She returned to Austin with Miss Aleene to spend the week.

Mrs. George Chapman of Cameron spent the week end with her daughter, Mrs. Leona Griswold.

Frank Griffin and Bobby Russell were Sunday visitors in the Zack Griffin home.

Rev. Bob Scarbrough was a Sunday guest in the home of Mr. and Mrs. Fisher Ward.

Mr. and Mrs. W. A. Wilkerson and Mr. and Mrs. Chas Russell visited in the J. H. Richerson home near Rosebud Sunday afternoon.

A large group of friends from

this community attended the funeral of Will Gandy Saturday afternoon and extended sympathy to his loved ones in time of sorrow. Loma Russell visited Evelyn Klappa Sunday.

Mrs. Alton Bryant attended the Temple Fair last week.

Mr. and Mrs. Auttis Franklin were also at the Fair last week.

George Allen was a visitor in the W. A. Wilkerson home first of the week.

Ardell Pagel and Leroy Franklin each had a number of entries of FFA projects at the Cen-Tex Fair in Temple all last week.

Mrs. Attis Franklin honored her husband with a turkey dinner last Sunday on his birthday. A large group of relatives were present for the occasion.

Visitors at Yarrellton Church last Sunday were: Mrs. Mary Chapman of Cameron, Mrs. LaVerne Lange of Arkansas, and Miss Aleene Griswold of Austin.

Mr. and Mrs. Carl McLean visited in Rosebud Saturday.

Miss Elba Jean Colburn has returned to Denton for fall term at the College.

Scarce feed items in the winter livestock ration are abundant in small grains. Now is the time to plant the supplemental small grain pastures and the use of the right fertilizers will increase pasture yields and speed their growth.

## Funeral Services Held For Mr. Gandy

Funeral services were held Saturday for W. L. Gandy, who died at the home of his son, Coy Gandy of Abilene, Friday, September 21, 1951.

Rev. P. L. Caperton, assisted by Rev. Bob R. Walker, Pastor Battletown Baptist Church conducted the services at 2:30 P. M. at the Chapel of Green's Funeral Home. Burial in North Elm cemetery. Graveside services were in charge of the Yarrellton Masonic Lodge.

Mr. Gandy was 75 years old, having been born in Milam County and had lived here all his life. He was a resident of Buckholts where he had lived for several years. He had been in declining health for the past several years.

Among his survivors are his widow, Mrs. Lillian Alice Gandy of Buckholts; son, Coy Gandy of Abilene; two daughters, Mrs. Orba Arnold of Buckholts and Mrs. W. E. Collier of Waco. He is also survived by a brother, N. W. Gandy of Rogers; four grandchildren and four great grandchildren.

Mrs. Leona Walton, Mrs. Alma Houston, Misses Edith and Barbara Walton attended the football game in Brenham Friday night. They enjoyed the game very much.

## Humble Oil Company To Broadcast Week End Games

Humble Oil & Refining Co., will follow up its season-opening "football broadside" last weekend with action-packed broadcasts of five more games played by Southwest Conference teams on Saturday, September 29.

The coming weekend will be highlighted by play-by-play radio and television reports of clashes between Texas A. & M. and Texas Tech, Rice and Clemson, SMU and Ohio State, TCU and Nebraska and Texas University and Purdue.

Charlie Jordan and Bob Walker will be on hand to cover the clash between University of Texas and Purdue, in Ross-Ade Stadium, Lafayette, Indiana. Air time is set for 12:20 p. m., over stations KTBC Austin; KTRH, Houston; KRLL, Dallas; KABC, San Antonio; KEYS Corpus Christi; KRGV, Weslaco; KFDX, Wichita Falls; KPYO, Lubbock; KGNC, Amarillo.

When SMU meets the blood-thirsty Buckeyes from Ohio State in Buckeye Stadium, Columbus, Ohio, Kern Tips and Eddie Barker will be there to bring the game to Texas listeners at 12:50 p. m. on stations WFFA-WBAP, Dallas; Ft. Worth; KPRC, Houston; WOAI San Antonio, KWBU, Corpus Christi; KRIO, McAllen; KTBB, Tyler; KTRE, Lufkin; KFDM, Beaumont.

Southwest Conference fans will hear the TCU-Nebraska tilt described by Ves Box and Glenn Brown, from Nebraska Memorial Stadium, Lincoln, Nebraska at 1:50 p. m. over stations WBAP-WFFA-570, Fort Worth-Dallas; KWFT, Wichita Falls, KXYZ, Houston; KTSA, San Antonio; KRBC Abilene, KGKL, San Angelo; KBWD Brownwood; KBST, Big Springs; KCRS, Midland, and KNOW, Austin.

The game between the Texas Aggies and Texas Tech's Red Raiders will be broadcast from the Cotton Bowl in Dallas by John Ferguson and Alec Chessner, at 8 p. m. over stations WRR, Dallas; KPJZ, Ft. Worth; KRBC, Abilene; KGKL, San Angelo; KBWD, Brownwood; KBST, Big Springs; KCRS Midland; KCBF, Lubbock; KTBB, Tyler; KVET, Austin; KABC, San Antonio; KTHH Houston; KRIG, Odessa; KVKM, Monahans, KIUN, Pecos, KVLF, Alpine; KSET, El Paso, KORA, Bryan.

Bill Michaels and Dave Russell team up to bring fans the report of the Rice versus Clemson get-together in Houston Stadium. The broadcast time will be 8:05 p. m., over stations KPRC, Houston; KFDM, Beaumont; KTRE, Lufkin; KKRIS, Corpus Christi.

## Christian Scientist Services Will Be Held At 11:00 A. M.

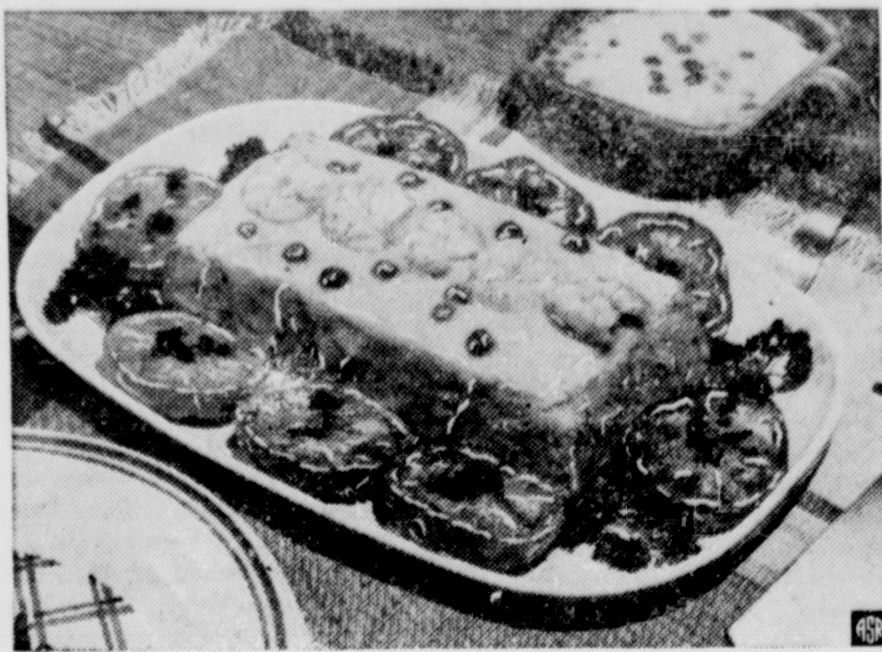

Christian Science services are held every Sunday morning at 11 o'clock in the Business and Professional Women's Club room, located in the old school building. The public is cordially invited to attend.

To struggling humanity living in a war-torn world, the declaration that only the good is real seems transcendental, but a deeper analysis shows the statement contains a practical truth. That God made all that was made, and made it very good is the theme of the Lesson-Sermon titled "Reality" to be read in all Christian Science churches on Sunday, September 30.

The Golden Text states, "The Lord hath brought forth our righteousness: come, and let us declare in Zion the work of the Lord our God" (Jeremiah 51:10). That mankind's safety and present consciousness of good are dependent upon understanding God is seen in this Bible citation, included in the Lesson-Sermon: "Praise ye the Lord. Blessed is the man that feareth the Lord, that delighteth greatly in his commandments. Surely he shall not be moved for ever: the righteous shall be in everlasting remembrance" (Psalms 112:1-6).

From the Christian Science textbook will be read this summation of the subject: "The three great attributes of Spirit, omnipotence, omnipresence, omniscience, Spirit possessing all power, filling all space, constituting all Science, contradict forever the belief that matter can be actual. These eternal verities reveal primeval existence as the radiant reality of God's creation, in which all that He has made is pronounced by His wisdom good" (Science and Health with Key to the Scriptures, by Mary Baker Eddy, page 109).

## Louisiana Shrimp Loaf Easy Canned Entree

For economy's sake, you'll find the Louisiana canned shrimp now on your grocer's shelves a real treat to the budget, as well as to delightful eating. Praises be—canned shrimp are actually less costly now than they were ten years ago, and yet their quality is even better, both points thanks to mechanical innovations in cleaning, peeling and handling. Save money by using the medium and small shrimp, every bit as full of flavor and high nutrition as the great big ones, and easier to stretch in these times of slim food budgets.

Here's something new, this shrimp loaf, made in a jiffy when you get your shrimp from cans, all shelled, cooked, and cleaned. Serve with a tasty Pimiento Pea Sauce and grilled tomatoes, plentiful this month, and you have a full dinner that will never betray its thrift.

### Shrimp Loaf

2 eggs	2 5-ounce cans shrimp
1 cup milk	2 tablespoons chopped parsley
4 cups soft bread crumbs	1 1/2 teaspoon salt
	1/4 teaspoon pepper

Beat eggs, combine with milk, add soft bread crumbs and shredded canned shrimp, chopped parsley, salt and pepper. Mix well and pack into well-oiled loaf pan. Bake in a moderate oven (350°F.) 45 minutes. Turn out on platter and serve with grilled tomato halves and Pimiento Pea Sauce. YIELD: 6 servings

## News And Views By Your Home Demonstration Agent

By Mrs. Alice Hughes

The Home Demonstration Clubs and 4-H Clubs over Milam County are receiving some spirit and enthusiasm for accomplishments both at home and in the clubs. The long heat wave suffered during the summer made meetings a supreme effort rather than a thing to enjoy.

The Demonstration carried in the county this month, with the women, has been the selection and making of draperies. Several women who are not Home Demonstration Club members have visited the clubs for this demonstration.

The girls clubs are reorganized, and new officers have been elected in the first meetings.

All girls 4-H clubs, except Sharp will be reorganized during September. The Sharp group will meet early in October.

The Milam County Council met in the basement of the Lutheran Church in Rockdale, Sept. 24, at 2 p. m. All clubs were represented except Jones Prairie and Clarkson.

The Council Chairman, Mrs. George Young, presided over the meeting.

Recreation was conducted by Mrs. W. E. Boyd, Recreation Chairman.

Secretary's report and roll call was given by Mrs. V. L. Angell secretary.

Clubs were asked to turn in their final achievement reports in October so the agent can complete her annual reports in November.

The Silver Tea, which was planned for the Fall months sometime ago, was discussed and voted to be held at the Minerva Community Center in the afternoon, the date being left open to the

committee in charge to set, as a book review is planned as a part of this event, and the date will be set at the convenience of the person selected to give the review.

The next year's womens encampment was discussed, and it was voted to go to Buchanan Dam, if a reservation can be made in late June or July.

All Clubs will elect officers for 1952 in October.

A nomination committee was appointed to nominate officers for Council for 1952. The committee named: Mrs. Roy Butler, Thorn-dale, chairman; Mrs. Albert Holliman, New Salem and Mrs. George Logan, Burlington.

The Home Demonstration women of the county will have a bazaar on Oct. 27. One booth will be set up in Cameron and one in Rockdale. The Finance Chairman of each club will be responsible for donations for these booths. A second bazaar will be held on November 17 to sell items not sold out in October.

The Program and Year Book Committees will meet with the agent on October 8th to get the 1952 year book plans set up and ready to go to press.

Plans are being made by the Program and Exhibit Committees to set up a small exhibit the week of Oct. 20-27, showing what the United Nations stands for in observance of United Nations Day Oct. 24. One of these exhibits will be put up in every community in the county.

Clubs will be reminded to be preparing for the Upholstery Training School to be held on Oct. 30 and 31.

## Appointment Of Richard Bush As County USO Chairman Announced

Richard Bush, manager of the Lone Star Gas Co., Cameron, Tex., today was named Milam County Chairman for the forthcoming fund appeal in Texas for the U. S. O.

Appointment of Mr. Bush to head the Milam County appeal was announced by Ben H. Wooten of Dallas, Campaign Chairman of the Texas United Defense Fund Committee and Irvin Clary, district 62 chairman of the U. S. O. fund campaign.

In accepting the appointment as County Chairman, Mr. Bush pointed out that Milam County has a total of 491 boys and girls serving in the armed forces, and that more young people will be called up from time to time as our defense program expands.

"One of our most important civic, patriotic and personal responsibilities is to these young people

in uniform," Mr. Bush said. "Through the U. S. O. we have a means by which we can assist in keeping up the morale of these young men and women who are giving up so much to protect our freedom."

"Let's make certain that the fund appeal for \$2,080 in Milam County is a success."

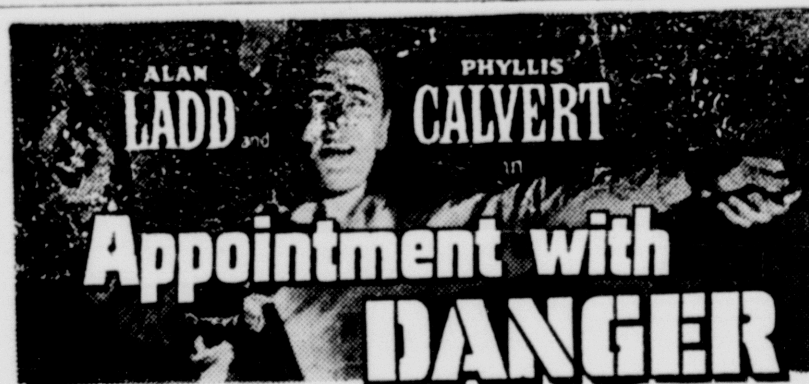

Frank Ermis who has been ill and in Newton Memorial Hospital has returned home and improving.

A record tonnage of commercial feeds was sold in Texas during the past fiscal year. The total tonnage was estimated at 3,835,600 tons. An increase of 617,250 tons over the previous year and 525,600 tons more than were sold in 1942-43, the previous record year.

Santa Fe carloadings for week ending September 22, 1951, were 26,364 compared with 24,824 for same week in 1950. Cars received from connections totaled 12,497 compared with 13,557 for same week in 1950. Total cars moved were 38,861 compared with 38,381 for same week in 1950. Santa Fe handled a total of 37,001 cars in preceding week of this year.

Dry ice can be used to hold the temperature down in the home freezer in case of power failure or compressor trouble. A 50 pound cake, cut into pieces and placed in the various compartments, will hold the temperature to about 15 degrees for 48 hours.

507 Farm Applications For Winter Legume and Phosphate Issued Here

Recent showers over many sections of the state should make it possible for farmers to plant a winter legume crop. The best time for fall planting, says E. A. Miller, Extension Agronomist of Texas A. and M. College, is from now until November 1st and he urges farmers to plant as soon as the supply of soil moisture is adequate to insure a stand and to get the crop started.

According to Robert Glenn, employee at the PMA office, applications for 507 separate farms, participating in the legume and phosphate program have been issued.

Several of these are for farmers who have not participated in the program in previous years, Glenn added. The rain over the county

EXECUTIVE DEPARTMENT  
AUSTIN, TEXAS  
September 27, 1951

Mr. Brad H. Smith, President  
Texas Press Association  
441 Driskill Hotel  
Austin, Texas

Dear Mr. Smith:

With a full realization and appreciation that a free press is a bulwark of the American way of life, I consider it most appropriate that National Newspaper Week is to be observed October 1-8, inclusive. During the present unsettled world conditions it is entirely befitting that this nation and the State of Texas pay tribute to an organization that must play a vital role in the days which lie ahead.

To chronicle the many contributions of the press to our Democratic nation and to the development of a world civilization is impossible. From the smallest hamlet to the largest metropolitan center newspapers constantly have been, and will continue to be, in the foreground championing civic, governmental, educational, cultural and religious improvements. In the field of international events, the diligent efforts of a vigilant press have made the people of our nation the best informed in the world.

A free press means a free people. The history of the world has taught us that nations which censor and hamper a free press do not survive. I am convinced this will continue to be true in the future and that the iron curtain of communistic countries will represent but another chapter in the fate of tyrannical governments which saw fit to interfere with a basic freedom—a freedom of the press. Truly "Your Newspaper Lights the Way of Freedom."

To a free press of Texas, to the members of the Texas Press Association and to our great newspaper industry I offer my sincere congratulations. It is my earnest wish that National Newspaper Week be observed by all Texans with just tribute being paid to a worthy organization and industry.

Sincerely yours,  
Allan Shivers  
ALLAN SHIVERS

Former Milam County Resident Writes Of Early Day Doctors

Editor's Note—The following is a letter received from Dr. Rogers which we know our readers will enjoy reading.

By W. M. ROGERS, M. D.  
Rule, Texas.

Being born and reared in Milam County in the days of long ago, and my father being a subscriber of the Herald, I thought a letter telling of the early Doctors of the County might be of interest to your readers. I am sure those living now, do not remember any of the Doctors mentioned in this letter. They were the doctors of the late seventies and the early eighties.

In Cameron, as I recall there was Drs. Pope, Jones, Greer, Shaw, and Monroe.

In Maysfield there were Doctor Aiken, McCollough, Powell, Ellzey and Lovelace.

At Jones Prairie was the elder R. K. Fontaine, father of Dr. Fontaine, who practices there at this time, and Dr. Herring.

At Branchville was Drs. Taylor and Bailey.

At Davilla was Dr. Sharp.

Drs. Fancher and Parker were at Calvert, out of the County, but were called often in consultation with the Milam County doctors.

At Maysfield the early Druggist was a Polish gentleman by the name of Slubicki. Later Jack McCollough, son of the Dr. McCollough mentioned above was the druggist.

Curiously, Maysfield where there were, at different times several resident doctors, a drug store, grocery store, gin and where the local Justice of the Peace resided, (Esq. Thweat), never had a post office.

These old doctors did a good job, with the facilities they had. The patients lived a normal out door life ate good substantial food and therefore had a wonderful resistance.

The Doctors in those days saw the patient. Not only his body, but the inner man. The practice of medicine now is a wonderful improvement over the old days, yet one is inclined to think that in many cases the doctors of today are too prone to look at the xray picture and the chart and overlook the inner man, the patient.

The doctors of that era were not the "horse and buggy" doctors, they traveled by horse back and carried the medicine they needed in their saddle bag medicine case, and compounded in the home the medication, calomel, quinine, blue mass, dovers powders and a few tinctures was the stock.

Dr. Lovelace was a homeopath, and loathed calomel, and insisted that when he passed away that he be not buried in a public cemetery, as there was a possibility, at the resurrection that some would arise with his good jaw bones and that he would have to take some ones eaten up by calomel.

Dr. McCollough was permitted under the medical practice act to practice on account of the years he had already practiced. Doctors, after one year in medical school could get a temporary license to practice between terms. After finishing medical school they went before a district board for a permanent certificate.

\*Studebaker standard, optional extra cost, was used.

## MICHALKA MOTORS

201 S. Travis Cameron Phone 507

Traffic Violations Forwarded To Public Safety Headquarters

Remember that last Highway Patrolman who stopped you for a traffic violation and warned you but didn't write you a ticket because you "talked him out of it"? Well, don't be so sure that you got scott free.

W. J. Elliott, Chief of the Texas Highway Patrol, announced today in Austin that every time one of his men stops a motorist and lets him off with a warning the officer makes out a warning ticket which contains the operator's name and address, his driver's license number, the vehicle type and registration, the date, location and nature of the violation.

The motorist doesn't get a copy of this ticket, Chief Elliott says, but a copy of it is forwarded to the headquarters of the Texas Department of Public Safety where it becomes a part of his permanent driving record.

And, here is the hitch—too many of those warnings, just like too many arrests or traffic accidents will bring the motorist up on the carpet to see whether his driving privileges should be revoked.

The procedure was placed into effect September 1st and according to Elliott the best way to avoid having your record catch up with

The Cameron Herald Thursday, September 27, 1951

you is to refrain from having accidents, from getting tickets, or getting warnings.

"Safe, sane and courteous driving that comes through observance of the traffic laws is the way to avoid this unpleasantness," says the Chief.

Miss Nila Jean Fuller To Wed Wm. Gilbert

Mr. and Mrs. A. Z. Fuller have announced the approaching marriage of their daughter, Nila Jean, to William Gilbert.

The wedding has been set for 2:30 p. m., Sunday, October 7, at the Full Gospel Tabernacle.

H D Club Holds Tuesday Meeting

The Home Demonstration Club met in the home of Mrs. H. N. Tate Tuesday, September 18 at 2 p. m. Eleven members and three guests were present.

The agent, Mrs. Hughes, gave an interesting demonstration on draperies, showing samples of materials to be used in contrast with other furnishings.

Roll call was answered by each member telling her most embarrassing moment.

The Club will hold its next regular meeting in the home of Mrs. Virgil Coward on Oct. 2

Bride-Elect Honored With Wedding Shower On Birthday Recently

Miss Nila Jean Fuller, bride elect of William Gilbert was complimented with a wedding shower at the City park here recently.

Hostesses were Mesdames Rolan Gandy, Mary Perrsky, Alton Robbins and Miss Nora Frances Baggett.

Miss La Wanda Raney had charge of the guest book and registered approximately 79 guests during the afternoon. Miss Patricia Gandy greeted the guests.

The hostesses served tuna fish sandwiches, potato chips and iced tea, and plate favors were mints. Little bells containing a script announcing the date of the wedding were given each guest.

The honoree received many nice gifts and thanked each and every one in her own sweet manner.

Mrs. H. V. Hess of Hot Springs, Arkansas visited Mrs. Frances Michna a few hours Friday enroute to Buckholts and Killeen where she spent the week end.

Yoemen "Babies" Take Drubbing From Temple Kittens 18-6

The "B" team football opener for the season was staged at Yoe Stadium Thursday night when the Temple Kittens invaded the home teams bailiwick.

The Kittens scored in the first and second quarters but failed to convert in either instance—score at the half 12-0 for Kittens.

In the second half the Kittens managed another TD, but failed again to convert, 18-0. Cameron started its drive after the kickoff and working behind drives of Geo. Bryan they moved to the 15 yard line when Bryan passed to Heitman for the only Cameron touch down of the game and so 18-6 was the final chalk up.

"Sparkers" in the line for Cameron were Eanes, Junior Zoltz, Calvin Gilbert and Bill Reddehaus.

The "Babies" put up a very good showing considering that it was the first football game for most of the team against an opposing outsider.

The Yoemen first string journey to Brenham tonight where they will try their luck against the "Power House" Brenhamites.

Water Shortage Cui By New Well

Temple, Texas, September 20.—Water is still flowing over the Leon river dam which forms Temple's city reservoir and the water department is no longer drawing from the REA, the McCloskey and the Allen ice plant wells.

City Water Supt. W. J. Weems said river water and that being pumped from the first of five wells to be drilled was supplying the city now. The Myers and Son No. 1 well probably will begin testing by Wednesday.

Layne-Texas is drilling No. 2, Myers and Sons will start their No. 2, as soon as the first one is finished. Contracts will be signed for the fifth well, to be located in the north part of Temple, in the near future.

City water customers will pay the approximately \$160,000 the wells will cost through slightly increased water rates.

OUR APPRECIATION

Rev. Ben Holub, the Altar Society and members of SS Cyril and Methodius Church, take this means of thanking the merchants of Cameron and others who donated articles for the auction and helped in other ways to make their annual picnic and dance a success.

Katherine Sutter Gets Nurses Diploma From Providence Hospital

Miss Katherine Sutter of Cameron recently received her diploma and graduate pin from Providence Hospital School of Nursing in Waco.

Miss Sutter is the daughter of Mr. and Mrs. John Sutter of 304 Karnes Avenue, Cameron and was

one of 17 girls who have completed three years of classroom study and hospital work. After completing the course and passing a state examination, graduates are awarded the coveted degree, "R. N."

Graduation exercises were held at the Church of the Assumption in Waco. Lieut. Col. Cornelius H. Henninger, chaplain of the Flying Training Air Force, was the main speaker.

## CLARKSON NEWS

Mrs. J. A. Blasienz

Mrs. Jim Hauk and Mrs. Bob Todd of Bryan were cohostesses to a shower in honor of Cpl. and Mrs. Johnny Joe Hauk of Fort Hood, who recently were married.

Cpl. Hauk is the son of Mr. and Mrs. Joe Hauk of Clarkson and Mrs. Hauk is the daughter of Mr. and Mrs. Orval Butler of Wortham.

The games played during the party hours were as near in liking as the invitation cards sent out which were in the form of small rainbows with a pot of gold at the end of the rainbow. In one game the bride and groom were taken on a treasure hunt which ended at the end of a large rainbow, where a pot of gold was filled with many lovely gifts.

Refreshments consisting of chicken salad sandwiches, cake, squares and punch was served. Plate favors were small pots of gold in which was a penny for good luck.

Approximately 50 guests were present including the bride's parents, Mr. and Mrs. T. W. Garrett and other relatives of Bryan and friends from Cameron, Burlington, Briary, Wilson, Jones Prairie and Clarkson.

Mr. and Mrs. Raymond Doskocil and family Mr. and Mrs. Roy Doskocil and family of Holland visited their parents, Mr. and Mrs. Emil Doskocil last Sunday.

Ray Stoebner of Ben Arnold spent last weekend with his cousin Edward Lee Lierman.

Mr. and Mrs. George Jones and family and his brother, Ralph of Travis, made a trip to West, Texas last week end. They reported that the cotton crop in some parts of the west would be very short this year.

Mr. and Mrs. Amos Doskocil had as guests last Sunday their

daughter and son-in-law, Mr. and Mrs. Brhno Kahlifons of Ft. Worth and his parents, Mr. and Mrs. Edd Kaulfous of Rosebud.

Miss Jewell Wimbery of Austin recently visited in the home of her brothers, Mr. and Mrs. Robert Wimbery, Mr. and Mrs. John Wimbery, Patricia and Roger Wimberly.

Mr. and Mrs. Charlie Skupin and children, Minnie and Jane were in Temple Tuesday and attended the parade and opening of the Cen-Tex Fair.

Mrs. R. E. Mitchel and Mrs. Doug Crook shopped in Cameron Thursday.

Mrs. Joe Hauk honored her husband with a delicious dinner on his birthday Sunday, September 16. Those enjoying the occasion were: Cpl. and Mrs. Johnny Joe Hauk of Fort Hood, Cpl. and Mrs. Billy Hauk and friends, Cpl. and Mrs. Gibert Ridout all from Sheppard AFB, Wichita Fall, Mrs. Hauk's parents, Mr. and Mrs. W. T. Garrett and brothers, Henry Garrett, Mr. and Mrs. Bobby Garrett and sons, Gary and Giles, all of Bryan and Miss Ada Haws of Brenham.

Mr. and Mrs. John Ernst of Barclay visited their son, Mr. and Mrs. Leon Ernst and family Friday afternoon.

Mr. John Laniecek accompanied by her daughter, Mr. and Mrs. Edwin Reynolds of Cameron attended the funeral of a brother-in-law held in Austin last week. Mrs. Laniecek remained for a few days visit with the family.

Mrs. Marie Ihlenfield and Mr. and Mrs. Albert Dörner were in Austin on business Wednesday.

Mr. and Mrs. Homer Williams and sons of Lott spent last week end with Mr. and Mrs. George Dodd and family.

Mr. and Mrs. William Kohring and daughter, Mr. and Mrs. C. B. Stranner of Fort Worth visited Mr. and Mrs. Bill Kohring and family at Rogers Sunday.

Mr. and Mrs. Emil Skupin sons attended the Cen-Tex Fair at Temple Thursday night.

Mr. and Mrs. Elton Cox and sons of Nacogdoches visited his parents, Mr. and Mrs. Walter Cox recently.

The Clarkson Cemetery Association will meet Sunday, October 1, at 2 o'clock, at the home of Mrs. Alice Mitchell.

Mrs. Alice Mitchell visited friends and relatives in Houston, Galveston and Rosebud for several weeks, and has returned to her home.

Mr. and Mrs. Gus Beckhusen have gone to Meadow, Texas where they will be for several months.

In an effort to maintain peak employment in the face of material shortages, The Studebaker Corporation is reaching across the Atlantic to Belgium for steel with which to supplement domestic allotments. Shown here are steel billets soon after the freighter Axeldyk, of the Holland America Line, unloaded in New York at the end of the 3,000-mile journey from Antwerp. The vital cargo is then rushed to Studebaker suppliers who transform it into crankshafts, connecting rods and steering knuckles.

## Jones Prairie News

BY MRS. S. S. HICKMAN

Mr. and Mrs. Joe Bailey have moved to Dallas where he has accepted a position with a business firm there. They will be missed in the church and social activities of the community. Mr. Bailey was one of the deacons in the Little River Baptist Church and president of the adult BTU while Mrs. Bailey had charge of the young peoples department. Many best wishes were expressed from friends.

Mr. and Mrs. Marvin Hickman were guests of Mr. and Mrs. Billy McClendon at Fort Worth over the weekend.

Roy Patzke visited his sister and family Mr. and Mrs. G. J. Henderson and Donald in Houston last week.

Denny Black, son of Mr. and Mrs. Jack Black of Freeport is visiting his grandparents, Mr. and Mrs. Dewey Black.

Mr. and Mrs. Carlton Crook were Temple visitors Friday of last week.

Mr. and Mrs. Lou Childers and family of Freeport visited their parents, Mr. and Mrs. Bill Thweatt here recently.

Mrs. J. A. McKinney and Miss Ethel McKinney were business visitors in Cameron Monday.

Mr. and Mrs. Hughes of Freeport spent the week end at their country home here, the former P. H. Love home.

Mrs. Jerry Blasienz, member of the Calvert school faculty spent Sunday with her sister and family, Mr. and Mrs. C. C. Story.

M-Sgt. and Mrs. John Atkinson rhhyddddd rrrr rrrrrhM of Randolph Field, San Antonio, visited her parents, Mr. and Mrs. Fritz Patzke and Sgt. Atkinson's mother, Mrs. A. Atkinson here recently.

Mrs. W. B. Burnett has returned from a pleasant visit with her sons and families, Mr. and Mrs. Moye Burnett, Mr. and Mrs. Jack Burnett and Bradley Burnett, all of Freeport.

Mr. and Mrs. Joe Hickman and little daughter, Barbara Jo of Cameron were Sunday afternoon guests of his parents, Mr. and Mrs. S. S. Hickman.

Mr. and Mrs. John Atkinson rhhyddddd rrrr rrrrrhM of Randolph Field, San Antonio, visited her parents, Mr. and Mrs. Fritz Patzke and Sgt. Atkinson's mother, Mrs. A. Atkinson here recently.

## MANY SURPRISED—

(Continued from front page.)

After three futile attempts at the Cub line by Rosenberg and Langford, Batte punted to the Cub 17. Here the Yoemen Frontmen held and forced the Cubs to punt out of bounds on their 35.

From here, a series of smashes and sweeps by Langford and Thompson finally hammered the ball to the Cub 7. But fate took a hand again when the ball was centered completely over Thompson's head and recovered by Joswaik for the Cubs.

About midway in the last quarter the Cubs tallied again. On a

pass by Thompson intended for Batte on the 40, Gene Dreyer, Cub center intercepted and raced the ball to the Yoeman 15 before he was finally spilled by Rinn. After two futile tries at the Yoeman line and one incomplete pass, Joswaik connected with Bredthauer on a screen pass play to the Yoeman one foot line. From here Borgstede rammed over for the final Cub TD. The conversion by Landua was good and the score stood at 15-0.

However, the Yoemen were not through fighting. Only six plays after the last Cub tally, Batte, plunged across the Brenham double stripe on a quarterback sneak. The conversion by Rosenberg was good. The score now stood at 15-7.

On the next play Landua fumbled while returning the Yoeman kickoff, the recovery by Thompson. But to no avail. Although

On the next play Landua fumbled while returning the Yoeman kickoff, the recovery by Thompson. But to no avail. Although

The Cameron Herald  
Thursday, September 27, 1951

the Yoeman raced the ball to the one foot line, they could not break through the Cub defense. The tussle finally ended with Butte snaring a pass from Beal on the one foot line.

We'd like to give special praise to the Yoemen defensive lineup. Although outweighed 10 pounds to the man, they were a mighty hard nut to crack. Pictured at the top of the front page are some of the boys we though did an outstanding job.

Another real battle is expected tomorrow night as the Yoemen gird to meet the Mexia Black Cats.

Although not rated as far up the list as Brenham was, the Black Cats are due to put up a stiff fight, and the Yoemen will have to be at their best to come out on top.

## Rat Control Program Should Be Continuous Health Officer Says

Because of the economic losses they cause to industry and commerce and the annoyance they create in homes, rats have been considered a serious menace to mankind since long before their role as vectors of disease was understood. Today at least six diseases which are transmitted to man from the rat are known to medical science, according to Dr. Geo. W. Cox, State Health Officer. These diseases include the dread plague, typhus, trichinosis, a form of jaundice, tapeworm and food poisoning. The whole history of the role rats play in the transmission of disease remains as yet unknown.

## State Health Officer Gives Legal Status On Vegetable Fat Product

Texans now will know whether they are eating ice cream or the competitive vegetable fat frozen desert—mellorine.

State Health Officer George W. Cox has issued an order that defines, sets standards and gives a legal status to the vegetable fat product.

After October 1 all frozen deserts sold in Texas made with vegetable or other edible fats—rather than with butterfat—must be called "mellorine".

With the order, the millions of ice cream eaters in the State will be assured of getting real ice cream when they ask for ice cream—not a vegetable fat substitute product.

## M-Sgt. Robert Tynes Returning Home From Korean Service

Mrs. Robert Tynes recently received word that her husband has been promoted to the rank of Master Sgt.

Sgt. Tynes serves as Radio repair supervisor for the 3rd Infantry Division now stationed in Korea, and has been in the Far East the past 13 months.

Mrs. Tynes, the former Miss Minnie Nell Williams, of Cameron, and their three children, Barbara LaNell, James Robert and Deborah Joy, the baby Sgt. has never seen, are living with her mother, Mrs. Ernest Williams in Temple.

M-Sgt. Tynes expects to join his family soon, under the new rotation plan. He is the son of Mr. and Mrs. W. Lex Tynes of Marietta, Mississippi.

## Texas To Get More Farm Roads In 1951

Much has been said and much has been done about farm roads for rural Texas. Here is the straight dope: The Texas Highway Department has added 13,000 miles of farm roads to the State system since 1946. All have been paved and will be perpetually maintained by the state. Another 5,000 miles are programmed and financed for the next biennium. This will bring the total up to 18,000 miles by the end of 1953.

The pattern that has been set and the announced intention of the Texas Highway Commission will put a paved road at or near virtually every farm and ranch in Texas. It will be a good road—and it will be kept up as such by the Highway Department maintenance forces. If there is anything more that could or should be done about bringing the Texas farmer

## PRISON RODEO GUEST STAR

EDDY ARNOLD, "The Tennessee Plowboy," who became a star of radio, stage, screen and television will appear as guest star on opening Sunday of the 20th Annual Prison Rodeo on October 7th in Prison Stadium, Huntsville. Accompanying Arnold when he sings in the famed prison arena will be Roy Wiggins, "the mighty little man with the big steel guitar." The show starts at 2 p.m.

out of the mud, Highway High-lights would like to know what it is.

There is one significant fact about this farm road program that seems to have been lost in the shuffle. Back during the war years, 1942 to 1945, the Highway Commission observed that Texas counties had provided a total of only 7,300 miles of paved roads to serve the farm population of the state. The Commission believed that feeder roads are an integral part of a complete transportation network: that capillaries and arteries are both necessary. It was the Texas Highway Commission and the Texas Good Roads Association which furnished the leadership needed to convince the national Congress that farm roads should be included for federal aid in building a balanced road network. At this time Commission Chairman Brady Gentry, Judge

Tom Eplen, TGRA president, and Charles E. Simons, TGRA executive vice president, spent weeks in Washington originating and developing that idea. Congress was convinced. Texas later became the leading state to put into action Texas To Get that plan which Congress devised. The Lone Star State was the first

## M. L. Worcester, 95 Celebrates Birthday At Home Of Daughter

M. L. Worcester was honored with a birthday dinner at the home of his daughter, Mr. and Mrs. Henry McLane, Sunday September 16. The occasion was in celebration of Mr Worcester's 95 birthday.

A delicious dinner was served at the noon hour. Central attraction was the huge embossed birthday cake which held two candles. The second candle was for a nephew of the honoree, T. J. Worthington, of Fort Stockton, who shared honors with Mr. Worcester.

Out of town guests for the party were: Mr. and Mrs. Tom Worthington of Edinburg; Mr. and Mrs. Earl Kennedy and little daughter, Julie of Gallatin, Tenn. Mr. and Mrs. T. J. Worthington of Ft. Stockton and Mr. and Mrs. J. C. Worcester of McAllen.

Mr. Worcester received many lovely flowers, cards and letters on his birthday and wishes to say, "Thank You" to all his friends who remembered him with such lovely birthday wishes.

Scientists under the supervision of the U. S. Fish and Wildlife Service chart individual bird migrations by placing an aluminum identification band on one leg of the bird.

in the nation to complete a farm road under the plan. Texas has led the way ever since. And such measures as the Colson-Briscoe Bill of 1949, provisions of which were continued by acts of the Legislature of 1951, have speeded farm road construction in Texas over and above the regular federal aid program.

## Rains Helpful To Texas Pasture Feed

Austin, Sept. 21.—Rains brought effective relief to most drought-stricken areas of Texas last week and greatly improved prospects for fall and winter pastures.

The United States Department of Agriculture reported Wednesday that the rainfall was especially beneficial to pastures in East, Central and South Texas, where fields have been burned out by prolonged drought.

However, pastures continued to be dry and feed short throughout most of the Edwards Plateau and west over the trans-Pecos area. Pastures are also short in parts of the southern high plains and southern counties of the low rolling plains.

Pasture feed supplies are more adequate in the northern high plains.

Supplemental feeding is still the general rule over most of the state.

The rains were particularly helpful to farmers in south-central and southern counties, including the coastal bend area, where moisture has been sparse for more than a year. Only scattered light rains fell in most of the western half of the state during the week.

Wheat seeding was active in high plains counties and some early seeded acreage was up to a fair stand. In the low rolling plains, seed bed preparation was well advanced and some wheat was seeded for early fall pastures.

From where I sit ... by Joe Marsh

## Skip Makes a Slip

Miss Gilbert, the teacher, was telling me how Skip Lawson almost went to sleep in her physics class.

She noticed him nodding and—since they were discussing electricity—said in a loud voice: "Now maybe MR. LAWSON will explain what electricity is." Skip started up, looked around wildly, and blurted out, "Gee! I used to know, but I forgot."

"What a loss to science!" sighs Miss Gilbert. "No one to this day knows what electricity really is, and here we have a genius who could explain it—but forgot!"

From where I sit, I hope this taught Skip that you're better off if you admit you *don't* know all answers. Some grownups haven't learned that yet—like the ones who are always telling other people what's best and what's right and what's wrong. I like a temperate glass of beer, myself, but if you prefer buttermilk I won't argue. I've seen too many "know-it-alls" turn out to be wrong!

Joe Marsh

is your refrigerator knocking?  
losing efficiency?  
causing repair bills?

switch to

**Motorless  
Servel Gas Refrigerator**

Summer's about gone. How about your refrigerator? With dog days ahead, it may be wise to look at a motorless gas refrigerator if yours is knocking, losing efficiency or causing repair bills.

Hot summers mean nothing to Servel... it keeps on freezing with first-day efficiency. There is no motor, no compressor to wear out. A tiny flame does the work.

Be modern, go motorless. The gas refrigerator lasts longer, and the proof's in writing... an exclusive ten-year guarantee.

15% down, 18 months to pay  
Trade-in allowance can apply to down payment

**Chrysler V-8 Saratoga**

Performance unequalled at any price!

**FirePower Engine ... 125½-Inch Wheelbase ... Fluid-Matic Drive ...** Come drive it today! ... A new standard of modern motor car value is set by this brand new, lower-priced member of the Chrysler FirePower family!

**180 Horsepower ...** Come feel it perform! ... Most power per pound of weight ... greatest ratio of power-in-reserve ... ever offered in an American passenger car. And FirePower's built-in "mechanical octanes" let you use non-premium grade gas.

**Power Braking ... Oriflow Shock Absorbers ...** Smoother, quicker, safer stops with as little as 1/3 the usual foot pressure! Steadiness even on roughest roads that means new riding comfort and driving safety!

**Hydraguide Power Steering ...** Wonderful new steering ease, safety and front-wheel control ... with hydraulic power doing four-fifths of the work at your touch on the wheel!

**Chrysler Fluid-Torque Drive ...** Teamed with the Chrysler FirePower 180 horsepower V-8 engine, the new Fluid-Torque drive gives Saratoga faster acceleration to cruising speeds, and more flexible "change of pace," than any other car on the road! (Available at extra cost on all new Saratogas.)

**4 Sleek New Body Styles ...** 6 Passenger Sedan, 8 Passenger Sedan, Club Coupe, Town & Country Wagon.

**Hemispherical Combustion Chambers ...** the engineering reason why no other American passenger car engine today can match FirePower performance.

**Come Drive It ... Only A Ride Can Show You What Only A Chrysler Gives**

## Lel's Get Acquainted; Here's A Little On Alcoa's Two Top Men For Rockdale

John D. Harper, the man who will manage the Rockdale Works of the Aluminum Company of America, is a 41-year old native Tennessean who has been working for Alcoa ever since he was a high school boy.

Mr. Harper's first job was at the company's Alcoa, Tenn. works during the summer of 1925. He was 15 years old and a student at the Friendsville, Tenn., High School at the time.

He continued working part-time for Alcoa until he completed his education. Then he went on a full-time basis.

His appointment Tuesday as Rockdale Works manager came after 18 years of continuous service.

Mr. Harper's association with Alcoa was "a natural."

He was born and reared in Louisville, Tenn., a small town seven miles from the Alcoa plant. He continued working summers at Alcoa until he graduated from high school in 1928.

As an electrical engineering student at the University of Tenn., Mr. Harper became even better acquainted with Alcoa.

He was what was known as "a co-op student"—in other words, he spent half of his time working at the Alcoa Works. He would alternate between the classroom and his job every three months.

Following his graduation with a bachelor of science degree in electrical engineering in 1933, Mr. Harper started full-time work at Alcoa as an operator in the power department.

A year later, he was classified as a junior staff engineer.

From that position, he moved upward to the position of assistant power manager for Alcoa's extensive Tennessee operations—the job he held when he received the Rockdale appointment.

Mr. Harper married Miss Sammy McCrary of Fall Branch, Tenn., in 1937. They have three sons, Mac 11; John, 8; and Tommy 2.

The Harpers live in Maryville, Tenn., where Mr. Harper has been extremely active in civic affairs. He at present is a member of the City Planning Commission, and cubmaster of Maryville Cub Scout Pack No. 3088.

He is past president of the University of Tennessee College of Engineering Alumni Association.

Mr. Harper expects to move to Rockdale within six months—as soon as the Rockdale Works begins to take shape.

Mrs. Harper and their children will join him, according to present plans, at the end of the current school year.

The man who will supervise the building of the Rockdale Works of the Aluminum Company of America is Len B. Neubert, a 34-year old engineer who has been an executive in technical capacities during most of his 12 years with Alcoa.

Mr. Neubert, a native of Tenn., joined Alcoa on a permanent basis in 1939 after receiving a bachelor of science degree in electrical engineering from the University of Tennessee and following graduate engineering work at Tulane University.

But that wasn't his first Alcoa association. He was first employed by the company while a "co-op student" at the University of Tennessee. As such, he alternated between his job and his schooling every three months.

After completing his education, Mr. Neubert became a junior engineer at the Alcoa, Tenn., Works. The following year, he was transferred to Pittsburgh as a technical buyer in Alcoa's central purchasing department.

Then came a series of moves.

Mr. Neubert was shifted to Lafayette, Ind., and appointed district purchasing agent at Alcoa's LaFayette Works. He stayed there until January 1946.

Next he was assigned to the Pittsburgh purchasing office as an electrical equipment buyer.

In September, 1947, Mr. Neubert was assigned as materials co-ordinator during construction of the Alcoa fabricating plant at Davenport, Iowa.

That job completed, he returned to Pittsburgh in April 1948, to handle the purchase of materials for the Point Comfort Works at Port Lavaca.

Seven months later, he moved to Port Lavaca as Point Comfort Works district purchasing agent—a job he held until last October.

He was serving as district purchasing agent for Alcoa's Vancouver, Wash., Works when he received appointment Tuesday as construction superintendent of the Rockdale Works.

Mr. Neubert a former associate

member of the American Institute of Electrical Engineers, a member of the National Association of Purchasing Agents, a Mason, and a Shriner.

His wife, the former Nancy Lois Creech of Danville, Ind., will join him shortly in Rockdale. She currently is in Vancouver.

How will lignite be taken from the ground for use in the Rockdale Works of the Aluminum Company of America?

The answer is two-sided: (1) partially by strip mining, and (2) partially by underground mining.

Strip mining calls, first, for removal of the "over burden"—the dirt heaped above the lignite.

Then a strip of lignite—say, for example, 100 yards wide—is lifted out.

The next section of "over-burden" then is moved into the pit that results and a new strip of lignite is ready for removal.

And so on until a full vein has been taken from the ground.

Strip mining, naturally, can be used only in the case of deposits close to the surface of the ground. The deeper deposits will be lifted out through the conventional underground mining process.

The site of the Rockdale Works of the Aluminum Company of America is adjacent to the lignite fields—the world's largest—at Sandow in southwestern Milam County.

That put it—

8 miles southwest of Rockdale  
9 miles south of Thorndale.  
14 miles southeast of Taylor.  
24 miles south of Cameron.  
22 miles southeast of Granger.  
30 miles south of Bartlett.  
27 miles northeast of Elgin.  
32 miles east of Round Rock.  
29 miles southwest of Hearne.  
21 miles west of Caldwell.  
24 miles north of Giddings.  
52 miles northeast of Austin.

Disel switch engines will haul freight traffic on the Rockdale, Sandow, and Southern Railroad line when the Rockdale Works of the Aluminum Company of America goes into operation.

This line—six miles long—connects the lignite fields adjacent to the plant site with the Missouri Pacific Railroad at a point between Rockdale and Thorndale in southern Milam County.

The Rockdale Works of the Aluminum Company of America will mark up another first in the rapid growth of the aluminum industry.

It will be the first aluminum smelting plant in the nation to use electric power generated by burning lignite.

Four Alcoa smelting installations—those at Messena, N. Y., Badin, N. C., Alcoa, Tenn., and Vancouver, Wash.—use hydroelectric power.

Statement of Ownership  
The Cameron Herald, published Weekly at Cameron, Texas for September 27, 1951.

Milton F. Brown, Jr., Owner  
Sworn to and subscribed before me this 27th day of September, 1951.

INEZ E. COLLINS.  
(Seal)

An aluminum tube, four feet long and seven inches in diameter, was dropped by parachute over Japan by the same airplane that dropped the atomic bomb on Nagasaki. The tube contained a message for Professor Ryokichi Sagane, a nuclear physicist, urging him to persuade the Japanese general staff to surrender.

Miss Jessie Lowenstein has returned to her home after a pleasant visit in Houston and Galveston.

JOHN D. HARPER

John D. Harper and Len B. Neubert—the men named, respectively, as operating works manager and construction superintendent of the Rockdale Works of the Aluminum Company of America—have more in common than their jobs.

Both are natives of Tennessee. Both are electrical engineering graduates of the University of Tennessee.

Both worked for Alcoa as "co-op students" while undergraduates.

Both agree that Alcoa is about the best company in the world to work for.

HERALD Classifieds payoff.

LEN B. NEUBERT

Len B. Neubert, construction superintendent at the Rockdale Works of the Aluminum Company of America, is no stranger to Texas.

Mr. Neubert served as district purchasing agent at Alcoa's Point Comfort Works, near Port Lavaca from December, 1948, until last October.

He expects to move to Rockdale immediately.

Len B. Neubert, construction superintendent at the Rockdale Works of the Aluminum Company of America, has a twin brother who—he concedes—isn't exactly an identical twin.

Mr. Neubert weighs 165 pounds.

The Cameron Herald  
Thursday, September 27, 1951

Mrs. Dora Hinton has returned from a visit in Houston and is with her daughter, Miss Myrtle Hinton, Hotel Cameron.

### MILANO NEWS

Funeral services were held Saturday afternoon at First Methodist Church here for Tom Tabor, who died at his home Friday night of a heart attack. Mr. Tabor had not been well for sometime but his death came as a shock to his many friends. He had made Milano his home for several years and was loved and respected by all that knew him.

Services were conducted by R. E. Ledbetter and burial was made in Milano cemetery with Phillip and Luckey in charge of the funeral arrangements.

He is survived by his wife, Mrs. Emma Tabor, one daughter, Mrs. Lucile Kerns of Hearne and one son J. W. Tabor of Milano. A host of relatives and friends also survive.

Mrs. Maggie Miller spent the weekend with her daughter and family, Mr. and Mrs. Alfred Jistel at Salem.

Mr. and Mrs. Franks of Houston were weekend guests of Mr. and Ray Miller, Mrs. Franks and Mrs. Miller are sisters.

Guests in the home of Mr. and Mrs. Acuff were Mr. and Mrs. Eddie Ellis and daughter of Austin.

Milano Eagles came home from Thorndale with their wings down as they were beat 13-0. Thorndale was the only team that beat them last season.

Mr. and Mrs. Willard Pierce and children spent the weekend with her mother, Mrs. Mattie Pinkerton here.

Mrs. Dan Robinson visited a nephew who is seriously ill in Santa Fe Hospital. She also visited Mrs. Bessie Brennan who recently had an operation at Scott and White Hospital. She is improving nicely and will be home very soon.

The American Legion entertained with family night barbecue Saturday night with a large attendance present.

Mrs. Crenshaw and two children of Natches, spent the week here last week with her parents, Rev. and Mrs. Ledbetter, Mr.

Crenshaw came over for the week end and accompanied them home Sunday.

Mr. and Mrs. Collie Gerdes and two children of Caldwell were here Saturday for the funeral of their uncle, Mr. Tabor. They were weekend guests in the home of Mr. and Mrs. Carlos Sloan.

Mrs. Dunn of Palestine was a guest in the home of Mrs. Jessie Bankston last week.

Mr. and Mrs. J. F. Baggett of Houston were here for the weekend with his mother, Mrs. Hester Baggett and to attend the funeral of his uncle, Tom Tabor.

Several from Milano attended the anniversary of Sheriff and Mrs. Carl Black in Cameron Sunday afternoon.

Visitors in the home of Mr. and Mrs. Ase McGregor for the week end were, Mr. and Mrs. Fred Brennan of Houston, Mr. and Mrs. Lock. McNeely of Bryan.

Mr. and Mrs. J. E. White were shopping and visiting in Taylor Saturday.

### Pvt. George Black Complete Basic Airmen Course At Lackland

Pvt. George G. Black, 18, son of Mr. and Mrs. G. C. Black, of Cameron, Texas, Route 3, has completed his AF basic airmen indoctrination course at Lackland Air Force Base, the "Gateway to the Air Force."

Lackland, situated near San Antonio, is the world's largest air force base, site of Air Force basic training, for men and women, is headquarters of the Human Resource Research Center, and the Home of AF's Officers Candidate School.

His basic training has prepared him for entrance into Air Force technical training and for assignment in specialized work. The course included a scientific evaluation of his aptitude and inclination for following a particular vocation and career.

Big Bend National Park is one of the last great wilderness areas in Texas.

## CAMERA TOPICS

An unusually appealing photo is this Honor Award winner in the Non-Professional class of the Graftex Photo Contest. Made in 1/165 sec. at f/16 by John N. Gasko of Los Angeles, Calif.

### GOOD CAMERAS SELDOM WEAR OUT

Frequently people write us that they have found an old camera in their home and wonder if it is still any good. Mere age has little to do with a camera's usefulness. Good photographs can still be made with the cameras Matthew Brady used to take pictures of the Civil War. Like a fine watch, a good camera may look old-fashioned, but with good care they seldom wear out.

Before you try to use a camera that has been out of action for some time, take it to your camera dealer or repair man for a good check-up. Have him inspect the bellows and body for light leaks, see if the shutter needs cleaning or adjustment and polish up the lens. If the camera shows obvious signs of wear or damage, it is best to send it to the manufacturer for a good going-over.

A few dollars spent on a thorough overhaul will often make an old camera as good, and sometimes better than new for black-and-white pictures, even though its lens may not be corrected for color. If the old camera has a

good lens, don't be in a rush to get rid of it just because it does not have every modern feature.

If you have no need for an old camera, or want a different type ask your dealer to make you an allowance on the old camera toward the purchase of a new one. You may be pleasantly surprised at the price it may bring.

Many of us have old cameras around the house that are never used. Instead of throwing them away or letting them gather dust, invest a few dollars in having them put into working order and send them to the Veterans Hospital nearest your home. There are thousands of soldiers eager to have a simple camera to help pass the long hours. Photography has proven one of the most popular and useful hobbies for these men, and there is always an urgent demand for any kind of equipment.

So long as it can be made to operate properly, a camera has never outlived its usefulness to someone. Make a resolution to get that old family heirloom off the shelf and back into circulation.

\*Graftex Photo Director

### Max McClaren Is Reported Doing OK In Marlin

Mar McClaren, THE HERALD and MIDGET'S star reporter was reported doing nicely in the Bouie Hospital in Marlin. It was reported Wednesday that he was still unable to get around, but was expected to be on his feet within the next week.

### Officers Elected For Children Federation

"Save The Children Federation" met in the County Superintendent's office Thursday night and elected officers for the coming year.

They were: Mrs. J. D. Lewis, Chairman; Mrs. Vance Werner, vice-chairman; Mrs. Cynthia Saage baby sponsor; Mrs. Grace Horstman, clothing and layette; Mrs. Bess Triggs, White House Conference Chairman; Mrs. Ethel Hodges, Recording Secretary; Hinton Pruitt, sponsor school chairman; Mrs. Josie Gibbs, treasurer and Mrs. Dott Jeter, reporter.

Mrs. Julia B. Hillman, district representative of Bryan discussed the year's program and Mr. Pruitt willingly explained the school food situation.

Meetings will be held once a month. Everyone interested in helping underprivileged children in Milam County are urged to attend. Next meeting will be October 23.

Those present were: Mrs. Hillman of Bryan, Mr. and Mrs. H. H. Pruitt, Mrs. Bess Triggs, Mrs. J. D. Lewis, Mrs. Saage, Mrs. Werner and Mrs. Jeter.

### Land Owners Urged Vote For Supervisor

All Milam County farm land owners are urged by D. Klein, president of the Milam County Farm Bureau, to be sure to come to town Tuesday, Oct. 2, to vote in the election of a new district supervisor for the Central Texas Soil Conservation District.

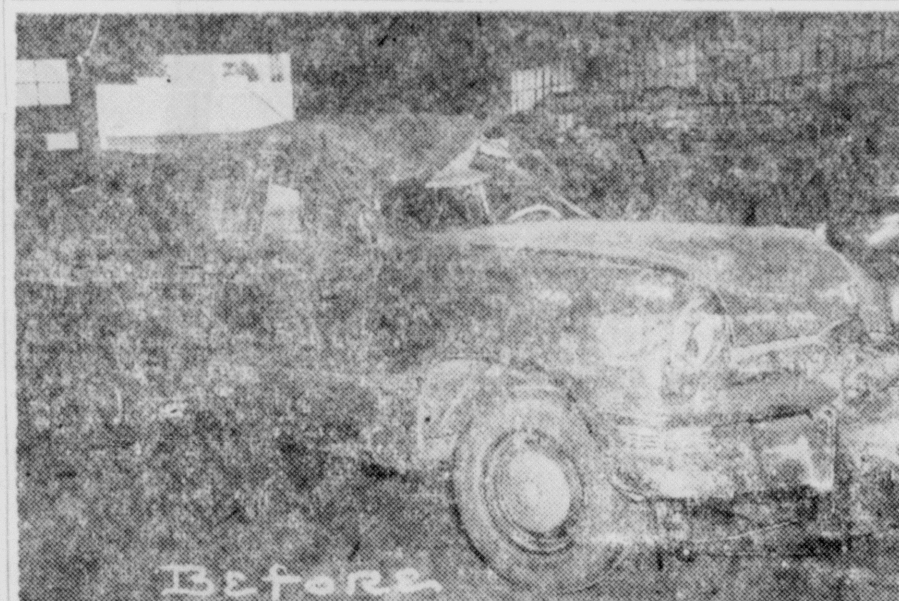

The voting will be in the district court room at 2 p. m.

Outdoor photographers use the crinkled aluminum foil as an excellent reflector.

### Defense Badge Award To Civilians Who Take Part In Bond Drive

FORT HOOD, Texas, Sept. 20. —The Army has designed a Defense Badge which will be awarded civilian employees who participate as "campaign workers" in the United States Defense Bond Drive.

Captain Walter Dillon, postal officer and chairman of the Fort Hood drive, recently received a shipment of the lapal badges.

A copy of the Federal Emblem Badge, finished in rich bronze, an eagle's outstretched wings form the crest which bears the inscription, "U S Defense Agent." An American pioneer with gun and plow stands in the foreground. A torch draped with a grain wreath stands in the background on each side of the pioneer figure.

The base of the badge is in-

scribed, "Merit Award U. S. Treasury."

The bronze badge is given when a campaign worker volunteers to serve the bond drive. When the worker has promoted 50 percent of the eligible support from his assigned area, a bronze pendant is also given.

### Jack Lewis Selected To Attend Officer's Candidate School

Private Andrew Jack Lewis, son of Mrs. A. J. Lewis, of Cameron, Texas, has been selected to attend an Army Officer Candidate School after completing basic training with the 5th Armored Division at Camp Chaffee, Ark.

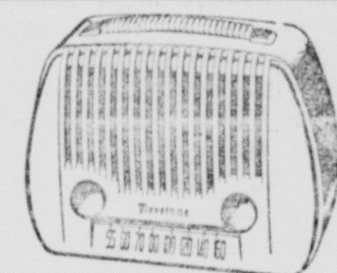

Upon completion of the rigorous 22 week course, Private Lewis will be eligible to apply for a commission in the Organized Reserve Corps. He attended the University of Texas, Austin.

## Milam County Day Designated At State Fair October 18

A unique, new type of Agriculture Show—more of a spectacle than an exhibition, will be presented at the 1951 State Fair of Texas, Dallas, October 6-31.

A "Storybook of Texas Agriculture" will tell the glamorous true story of how the soil of Texas is tilled to produce the necessities and many luxuries of life.

The mammoth free show in the Agriculture Building will portray agricultural products of prime importance in each of the 14 extension districts of the Texas A. & M. College System.

In 14 colorful sets, simulating giant-size pages of an open book, the story of each district will be told with three dimensional effect. The districts are the Panhandle, South Plains, Rolling Plains, North Texas, Northwest Texas, Big Bend, Edward's Plateau, Heart of Texas, Piney Woods, Central Texas (of which Milam County is a part) Hill County and Winter Garden Area, South Texas, Gulf Coast and Rio Grande Valley.

The plot for the "Storybook" has been furnished by the people of Texas through their endeavors in growing cotton, fruits and vegetables, harvesting grass and grain crops, brooding and marketing poultry and livestock, and converting products for home consumption.

The "Storybook" material has been compiled and edited by Ray W. Wilson, the fair's agriculture manager, in collaborating with Texas A. & M. district agents in agriculture and home economics, county and home demonstrations agents, and farm and ranch leaders.

Live animals, animated figures, drawing, miniature farm homes and buildings, models and mannequins, and actual farm products will be used to create an impression of reality in the sets. In triangular panels between sets, color photographs will be enhanced by spectacular lighting effects.

Three additional sets will depict the work of 4-H Club members, negro extension workers and Future Farmers of America.

The featured display in the center of the Agriculture Building will be a huge turntable with a relief map of Texas showing the cities and physical characteristics of each district. Fourteen island will rise from the map, delineating their chief products. A huge ledger on the turntable will also denote the far-reaching importance of agriculture in Texas as economy.

Thursday, October 18, has been designated as District 10 (which includes Milam County Day.)

HERALD Classifieds payoff.

## ANOTHER VICTIM

This outlaw Brahma Bull is about to chalk up another victory over the outlaw rider. Sometimes it's the other way around though when outlaw men mount outlaw stock at the 20th Annual Prison Rodeo in Prison Stadium at Huntsville each Sunday in October.

## Prison Rodeo Ready For Opening Of Annual Affair

Eddy Arnold, America's favorite singer of folk songs will be featured guest performer on Opening Day of the 20th Annual Prison Rodeo at Huntsville, Sunday, October 7th.

Appearing on opening day only, Arnold heads the list of stellar guest attractions booked by the rodeo management for appearances between acts of the famed convict show. Accompanying Eddy when he performs at Prison Stadium will be Roy Wiggins, "the mighty little man with the big steel guitar", one of the nation's finest steel guitar players.

Rodeo Manager Albert Moore, who has directed the show for the past 18 years, promises that this year's rodeo will be even faster and wilder than any of the previous shows. Each Sunday's performance will include novelty acts along with standard rodeo events performed by the convicts, such as saddle and bareback bronc riding, bull riding, calf roping, etc., and such exclusive Prison Rodeo features as the famous Chariot Race, Wild Mare Milking, and the breathtaking Mad Scramble.

Aluminum skulls are sometimes used as a base for student undertakers practicing "restorative art."

## Drivers Warned To Included Sufficient Renewal Money

Homer Garrison, Jr., Director of the Texas Department of Public Safety, announced today in Austin that a survey conducted at the end of the first week of the increased fees for driver's licenses indicated that 48 per cent of the applications for renewal of operator's and commercial licenses failed to include sufficient money.

This, Garrison pointed out, was in spite of the fact that newspapers and radio stations cooperated wholeheartedly in publicizing that the cost of both of these type of licenses were doubled by the 52nd Legislature and became effective September 7th.

The Public Safety Director again reminds Texas motorists that the fee for an Operator's License is \$1.00 and for Commercial License, \$2.00. The price for a Chauffeur License remains at \$3.00. As before the Operator's License is valid for a period of two years and the latter two for a one year period each.

Remitting of the proper amount with your renewal application will expedite a more prompt return of your new license, Garrison said.

BRIDE-TO-BE—Mr. and Mrs. E. L. Muse of Edinburg announce the engagement of their daughter, Eleanor Sue, to Cpl. Billy G. Heaton, son of Mr. and Mrs. L. C. Heaton of Edinburg.

Miss Myrl Gilbert has enrolled in the school of nursing at Scott and White Hospital in Temple. Miss Gilbert is the daughter of Mr. and Mrs. C. F. Gilbert of Ben Arnold and reports she enjoys her work very much.

## Fair Honors Farmers October 10; Two Milam County Men Included

More than four hundred Texas farmers, who a few years ago were tenants, will be honored October 10, with a day at the State Fair of Texas. These farmers borrowed money through the Farmers Home Administration to buy family type farms, and paid off 40-year farm mortgages more than 30 years ahead of schedule. Of this number, those who paid their debt from returns from the soil will receive certificates of achievement for having paid their loans in full this year from agricultural income.

Ceremonies of awarding certificates signed by President R. L. Thornton, of the State Fair of Texas, and Texas FHA Director L. J. Cappleman will be held in the Hall of State on the State Fair Grounds at 1:00 P. M., October 10, County Supervisor Roy M. Wright announced this week. The number will include two farmers of Milam County, the Supervisor said. These farmers are, Will E. Stoenner of Route 1, Burlington and Sidney A. Frazier of Route 1, Buckholts. Wright is making plans to accompany a delegation of Milam County families to Dallas for the event.

Congressman W. R. Poage, of Waco, Chairman of the Agriculture Committee of the House of Representatives, will deliver an address covering the progress of Farmers Home Administration in the five-year history of the agency. He will be introduced by Dillard B. Lasseter, National FHA Administrator.

This will be the fourth annual Farmers Home Administration Achievement Day. Of the six thousand Tenant Purchase loans made in Texas under the Bankhead-Jones Act, approximately one-half have been paid off and their farms are now owned free of debt. A part of the program will include radio interviews of successful farmers who have achieved unusual success by following FHA directions in their farming operation.

Mrs. S. J. Henry is ill and in the Newton Memorial Hospital. Her many friends wish her a speedy recovery.

Mrs. Gene Smith has returned to her home from Newton Memorial Hospital, where she had a tonsilectomy. Her many friends will be pleased to know that she is somewhat improved. Her son and wife, Mr. and Mrs. Monroe Smith, of Houston spent the weekend with her.

Mrs. Henry Dryer and Beverly Ann King were in Waco on business Saturday.

## B & W Auto Sales Now Open For Business

John Brasher and R. J. Woodum have announced the opening of their used car lot across the street from the Post Office. They officially opened for business Saturday, Sept. 22.

Both Brasher and Woodum have had considerable previous experience in the car business. Before opening, Brasher owned the Brasher Garage and Woodum worked for Hefley Stedman Motor Co., for 15 years.

The business office for the new company will be located on the lot, where they will be glad to see all their old friends.

## Important Changes Have Been Made In Social Security Law

The first year of operations under the revised Social Security Act has brought many changes in the work of the Austin office of the Social Security Administration.

It has also meant a great deal to the people of Central Texas in terms of dollars and cents, according to James B. Marley, manager of the office. Far-reaching amendments to the law, passed by Congress late in August of last year, made a number of important changes in the old-age and survivors insurance program.

The most noticeable effect of the changes is in the heavy increase in the number of claims for payment. Applications from the 21 county area served by the Austin office now average about 65 per week, in contrast to a weekly average of about 30 before the amendments were passed last year. During the twelve months since the first changes became effective the Austin office has processed a total of 4025 claims for payment. Approximately half of these applications came from retired workers past the age of 65, with the rest from their families or from survivors of workers who have died.

Make McDermott, son of Mr. and Mrs. Make McDermott, Sr., is among the patients ill in St. Edward Hospital.

Miss Mary Maples has assumed her duties at the Bus terminal after several weeks absence due to illness.

Mr. and Mrs. Raleigh Lamb and daughter, Carol Ann attended the Cen-Tex Fair in Temple Saturday afternoon.

## Exercises Will Begin At Ft. Hood In Spring

Fort Hood, Texas—"Operation Longhorn," the Army's major maneuver exercise for 1952, will spread out beyond the boundaries of the gigantic Fort Hood reservation next spring.

As a result, citizens in the Lampasas-San Saba-Gatesville area will have an opportunity to observe, first hand, some of the nation's top defense units in action and at the same time contribute to the nation's accelerated defense effort. People in these cities might see soldiers in their streets and roadsides during March, when the mammoth war games will be held.

Authorities have assured that

private landholders will be fully protected and any damages caused by the maneuver exercises will be paid for by the government.

The maneuver area will also include the general area a north and west of Fort Hood proper.

One hundred and fifty thousand men are scheduled to take part in this year's large combat exercise, which will include large scale offensive and defensive tactical air support. The exercises will start

in early March and extend for three weeks.

The announcement of "Operation Longhorn," issued jointly by the Department of the Army and the office of Texas Governor Allan Shivers, gave no details as to the actual tactical situations to be set up.

Miss LaNelle Kuehl, daughter of Mr. and Mrs. Ted Kuehl has enrolled at SWTTC, San Marcos, where she is a freshman.

The pendent displays an armored tank against a field of bronze clouds and a large five pointed star. It is symbolic of an armored unit. The pendent is attached to the base of the lapel badge.

When coupled together, the badge and pendent compose a rich lapel dress one and one half inches wide and two inches long.

Sometime ago, I was reading just what it would cost to put back into our soils, some of the minerals that have been mined-out and cropped-out in recent years.

I think the figure was \$329.00 an acre just to put back the nitrogen alone. And that didn't include all the other minerals like phosphorus, calcium, manganese, and so forth. This test was planned against a seven acre patch of virgin land—land that had never had a plow put to it—

and a comparison drawn between the minerals in this land and that of land similar to what you find under average farming conditions.

But the point I want to make is this—you simply can't expect any feed or grain grown under these conditions to have one bit more of these precious minerals than what's already in the ground they're grown in. And for certain, if that cow, or that flock of chickens or what have you don't GET these elements in their

feed, then you're not going to get much in the way of production either. You've simply got to supplement their diet—give them a ration that's got all

these vitamins and minerals and proteins.

Take those growing chicks, for example. Now maybe you didn't get them started off just like you think they should. Well,

you just lay in a supply of SUNGLO Growing Mash and I don't believe it will be very long until you're going to see a mighty big difference in the way they look.

Of course, if you were lucky enough to get them started right off on SUNGLO Chick Starter, nobody's going to have to tell you to keep right on feeding the SUNGLO way for some mighty profitable results, too.

So, next time you get the chance, drop by my place here and let me show you just what a really big difference there is in this whole complete line of wonderful SUNGLO feeds.
